

Suggestions for 'small assignments' for PKVs

First 30-Day Faith Experiment

- Prayerfully study Mt.28:16-20 and Acts 1:8 and ask God to show you His plans for your campus and how He wants to use you.
- Set up an appointment with your pastor to introduce the Campus Crusade for Christ coach him the next time they are in town.
- Share the gospel with 3 people on your campus this week.
- Invite someone else to go out to share the gospel with you. Train them briefly in how to approach someone and in how to go through a gospel presentation, using the Four Spiritual Laws.
- Invite another believer to prayer walk around the campus with you, asking the Lord to:
 - use you to make Him known,
 - prepare the hearts of the lost to hear the gospel and turn to Jesus for salvation,
 - lead you to other believers who have the same vision for mission as you do.

Second 30-Day Faith Experiment

Prayer:

1. continue to ask God to show you His vision for you on your campus
2. pray every day for your campus
3. take others out to prayer walk on your campus

Evangelism:

- share the gospel 5 times a week
- take 2-3 others with you to share the gospel and let them lead after you have shown them how you do it

Vision Casting:

- share what you are learning from God about His vision for your campus with other believing students
- challenge these students to start the first 30-day faith experiment

Third 30-Day Faith Experiment

- Continue to do the things on the first and second 30-day faith experiment

Prayer:

- Pray every day for God to prepare lost students respond to the gospel and to use you and other believers to build a spiritual movement for Him among students in your city
- Ask God to clarify and broaden your vision/understanding for you and for your group as you trust Him together to make a difference for Him on your campus and among the students in your city

Evangelism:

- Train your PKVs in how to share the gospel with others
- Train them in how to follow up a new believer.

Vision Casting:

- As you are sharing the vision God has given you with other PKVs, determine if they are 'aligned'/'align-able'...ask yourself, are these the people God can use to help you accomplish the things He has placed you on your campus to do?
- Ask the other believers you have been gathering with you in these 30-day faith experiments to share their vision with you and others.
- Give the second 30-day faith experiment to those who have been faithful in the first one and challenge them to go through it.

Fourth 30-Day Faith Experiment

- Continue the activities from the previous 30-day faith experiments.

Prayer:

- Ask God to broaden or to clarify His vision for you as a group.

Evangelism:

- Continue to share the gospel with at least 5 people each week, looking to talk to people outside of your circle of friends and family.

Training:

- Challenge them to pass on the training to the others that they are getting from you (T4T lessons, testimony, etc)

Vision Casting:

- Give those completing the second 30-day faith experiment page the next one and follow up on how they are doing at completing it. You can help them figure out how to overcome barriers to fulfilling it if they are willing.

Planning:

- Have the group begin to make a simple plan of WBS for a particular target area among students.
